

EPILEPSY DURHAM REGION

matters

Corporate Donation Form

It is estimated that there are 300,000 people with epilepsy living in Canada, 30% of whom struggle daily with profound social and economical challenges. The epilepsy service community is poorly funded and ill-equipped to address needs of this magnitude.

We hope to inspire you and your network of business associates to unite with our circle of dedicated volunteers in meeting the challenges associated with this vastly misunderstood neurological disorder.

Corporations and foundations who partner with our agency distinguish their organizations as socially responsible and earn the gratitude and loyalty of more than 300,000 Canadians living with epilepsy, their families, friends, and caregivers.

Making a corporate donation is a simple and meaningful way to ensure the challenges associated with epilepsy are addressed while demonstrating to your employees, customers and your community that you care.
