Epilepsy Durham Region

10th

Annual Golf Tournament

Thursday June 11th, 2009

Oakridge Golf Club

**Join the challenge;
change the face of epilepsy!**

Take to the green and support Epilepsy Durham Region

Epilepsy or seizure disorder is a neurological condition, which affects the nervous system. It is usually diagnosed after a person has had at least two unprovoked seizures which were not caused by a known medical condition.

Epilepsy is not a single entity, but a family of more than 2000 syndromes which affect 300,000 Canadians and 50 million people worldwide. One in 28 people will develop epilepsy sometime in their lives. Although there have been advancements in the treatment of epilepsy, the overall management of those with epilepsy remains wanting for change. When someone has epilepsy it has a profound affect on the lives of many other people, including partners, children, caregivers, loved ones and friends.

Last year with your support Epilepsy Durham Region raised more than \$28,000 which continues to support our community health programming in Durham Region.

Your support directly impacts the quality of life and well being for those touched by epilepsy in Durham Region.

Thank You!
